What is community systems strengthening?

What is community systems strengthening?

- **Capacity**: the ability of individuals, organizations, and/or systems to perform appropriate functions effectively, efficiently, and sustainably.

What is community systems strengthening?

- **Capacity Building**: the process of strengthening the ability of individuals, organizations, and systems to perform core functions and to continue to improve and develop.

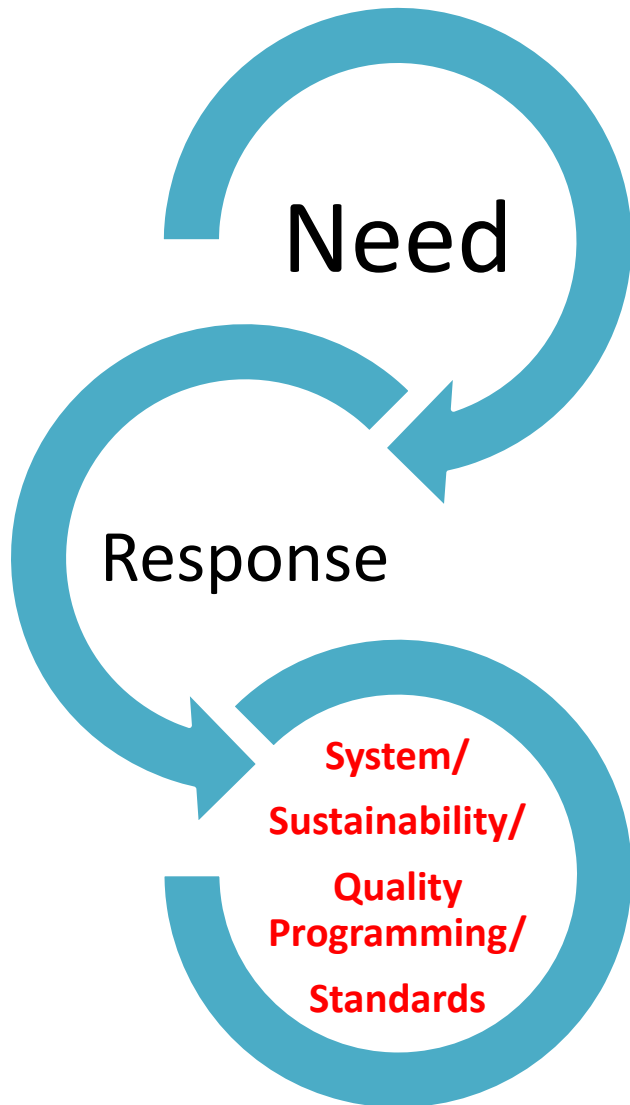

What is community systems strengthening?

- **Community Systems Strengthening:** developing the roles of key affected populations and communities, community organizations and networks, and public or private sector actors that work in partnership with civil society at the community level, in the design, delivery, monitoring and evaluation of services and activities aimed at improving health and social outcomes.

Why community systems strengthening?

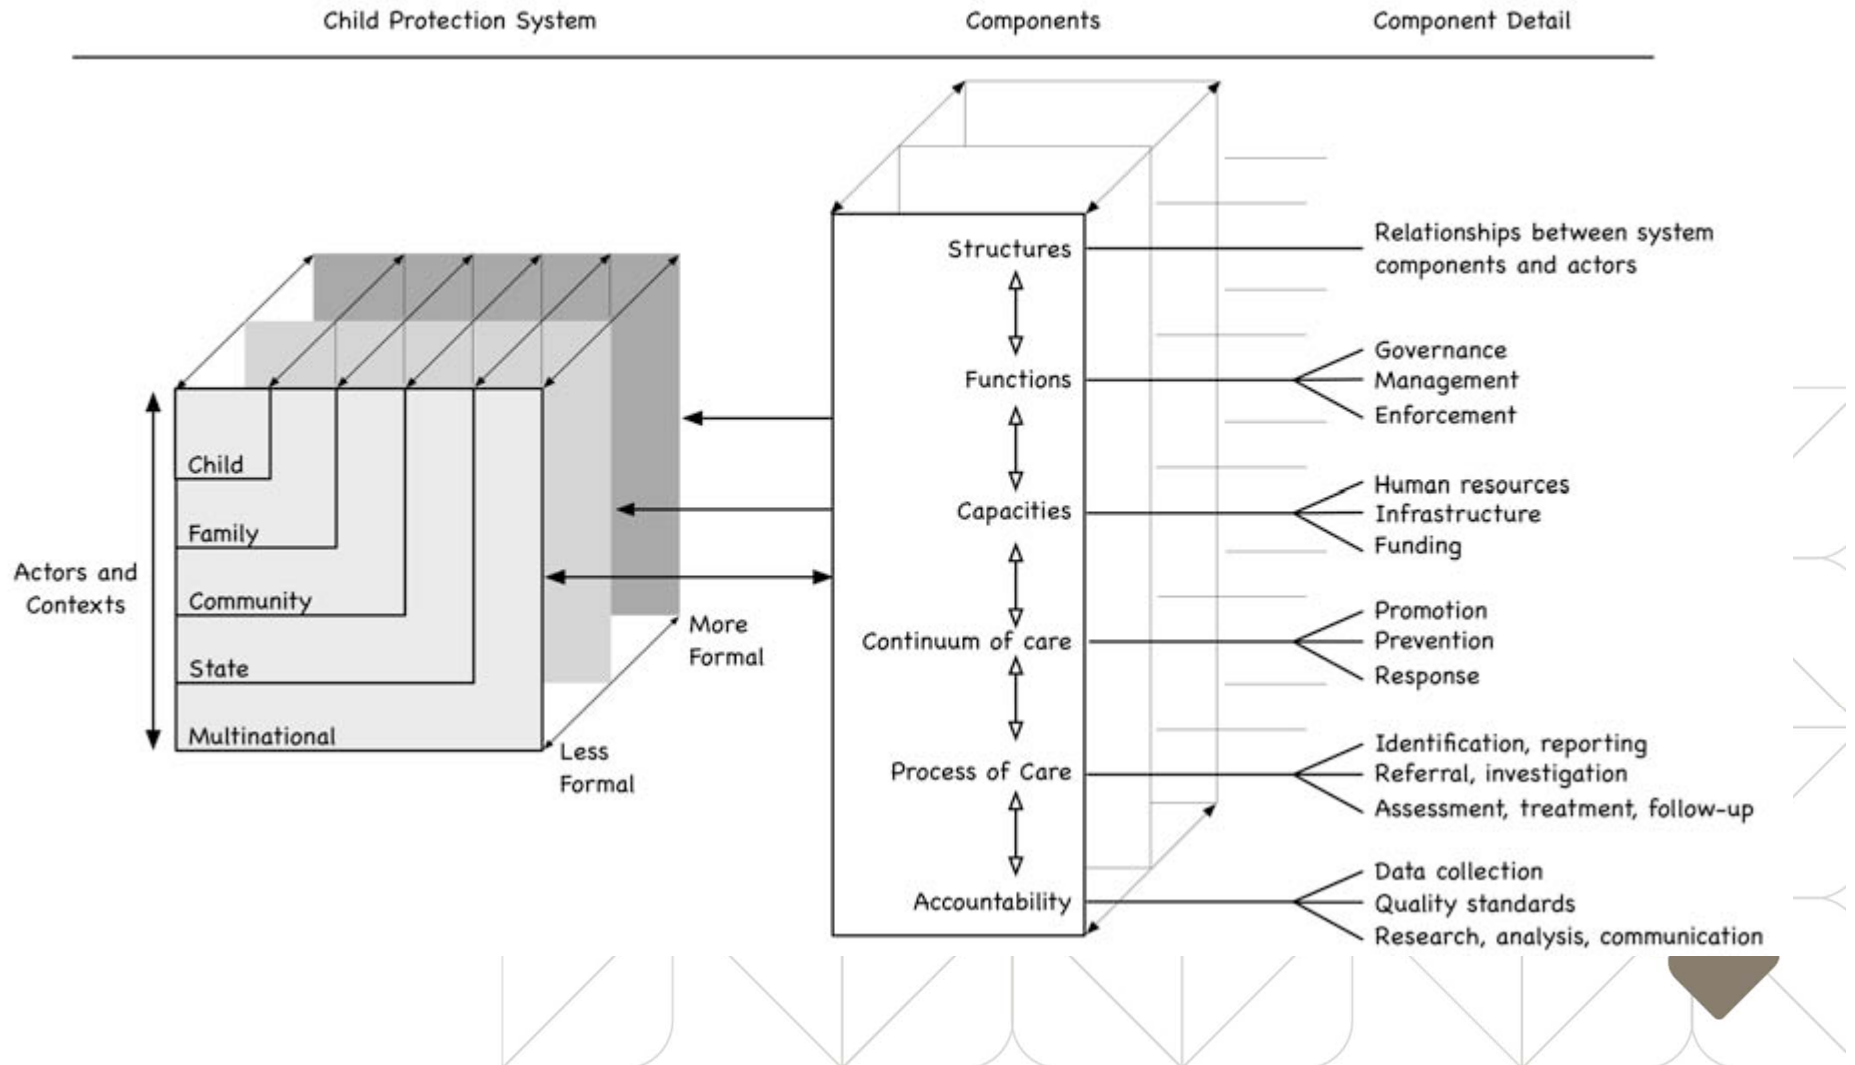

PEPFAR transition/decreased international donor funding/Need for more sustained local response

Capacity building/TA for other NPOs or SAG

How do we measure our work?

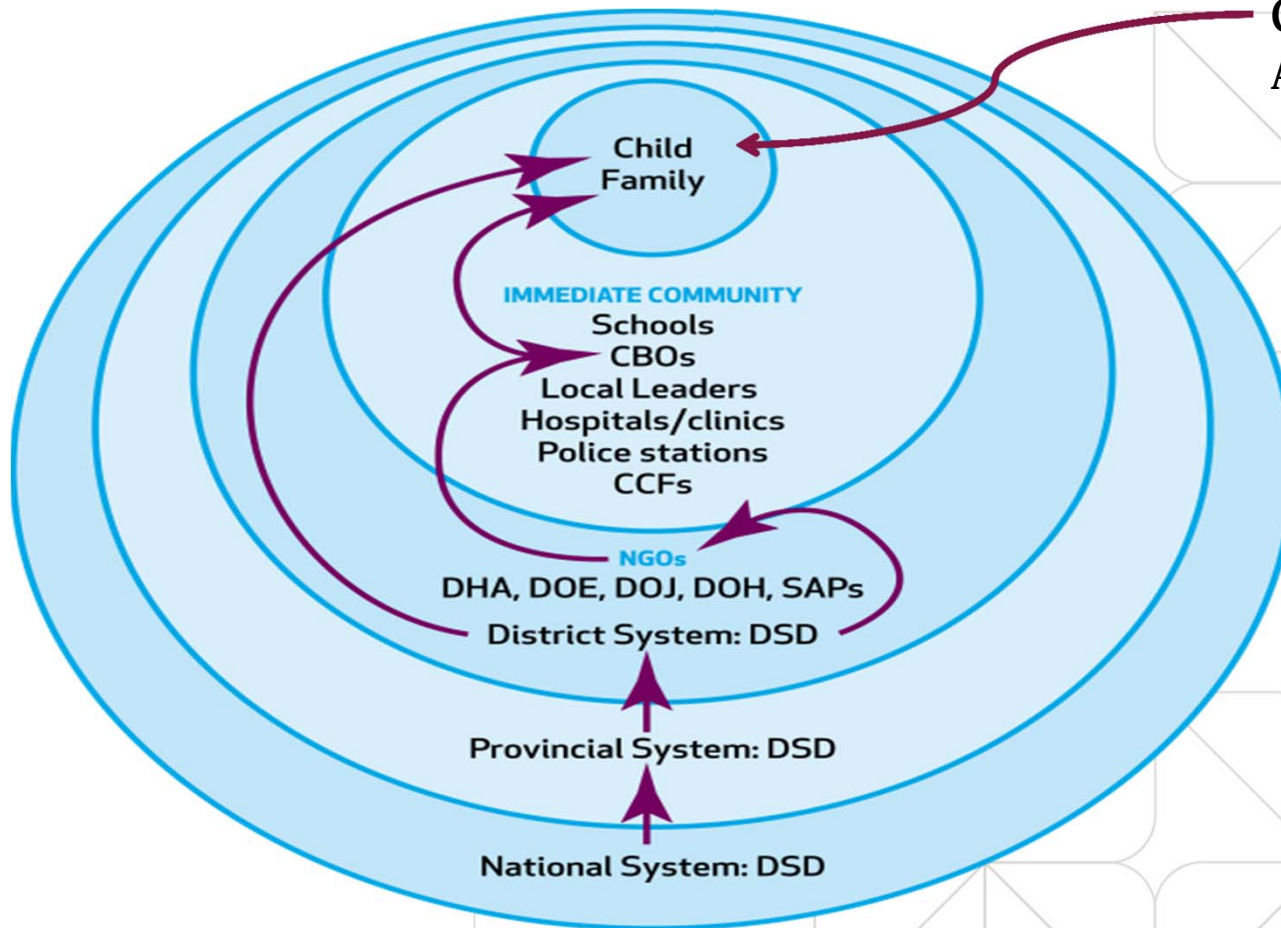

Child Protection Systems: Actors, Context, and Components

Customer Focused System

Who is the Customer?
Child Centred
Approach

Systems Strengthening - “Building Blocks for DSD”
